

**I am going to be
a photographer**

Aminat Gisaeva

I want to be a photographer
because you can see all kinds of
things and get an overview of all
kinds of things.

You can take photos of all kinds of things.

You can travel to a different country and take photos of all kinds of things there. For example, you can take a photo of a statue or Disneyland in Paris.

Or you can take photos of the way people look, for example, in India. You can take photos of the suits in India or the houses.

You can experience all kinds of things
as a photographer.
